FROZEN QUALITY FRUITS & PUREES

To capture the freshness of the field, each one of Crop's freezing and packing units is located in close proximity to the growing area. That is how we make sure the sun-ripened fruit are selected, cut and frozen within 2 to 4 hours of harvesting.

ALMOND

from California

Almond Storage Quick Tips:

- Avoid exposure to strong smells, as almonds can absorb odors of other materials if exposed for prolonged periods
- Avoid exposure to direct sunlight
- Protect from insects and pests
- Roasted products must be protected from oxygen
- Storage containers, resealable plastic bags, and vacuum packaging are all good options

LOCATION & ORIGIN

ABOUT STONEBARN

Stonebarn is a large commercial truffle producer in the Western Australian food and wine region of Manjimup, the heart of Australian truffle country that produces the majority of Australia's truffles with a climate similar to the truffle-growing regions of France.

The truffière is situated alongside a luxury lodge set on 160 acres amongst forest and river, containing a fully equipped commercial kitchen and wood-fired pizza oven, ideal for cooking classes, foodie groups, weddings or retreats.

Stonebarn is a sole-use venue, the entire lodge is rented to only one party at a time to ensure privacy and exclusivity to relax, retreat and rejuvenate.

“It was easily the best truffle we’d eaten: big aroma; firm, deep black & dense flesh & banging flavour.”

ROB BROADFIELD
REVIEW OF STONEBARN TRUFFLES

STONEBARN TRUFFLES

French Périgord truffles, (*Tuber Melanosporum*), are highly sought after and considered amongst the finest of all truffle varieties. They grow under our oak and hazelnut trees in a symbiotic relationship with the roots and are harvested throughout the Australian winter months of June, July and August.

THE STONEBARN AROMA

The aroma and flavour has been described as earthy – the floor of the forest, damp earth, roasted dry fruits and chocolate – with a memorable aroma and lingering aftertaste. Nothing beats the exquisite experience of fresh truffle.

STONEBARN TRUFFLE SIZE

French Périgord truffles vary in size from 3cm in diameter to the size of a large orange.

We pride ourselves on the exceptional quality, taste and aroma of our truffles, often attributed to our rich, sloping and free draining loam soils that create the ideal terroir.

OUR PROCESS

All of our truffles are premium French Périgord Black Truffle – Tuber Melanosporum. The truffle hunts occur several times a week for the duration of the season. Truffle is at its best as fresh as possible, to preserve aroma and flavour. We air-freight in custom designed coolers express directly from our farm throughout Australia and to every corner of the globe, ensuring you receive your truffle as fresh and as soon as possible.

The Hunt

Clean & Grade

Shipped Fresh

THE HUNT

The sensitive noses of our specially trained truffle dogs detect the unique aroma of the truffle buried treasure.

CLEAN & GRADE

The harvested truffle is immediately cleaned, graded & packed in our custom built truffle processing facility on the farm.

SHIPPED FRESH

We air-freight direct express from our farm to ensure that you receive your truffle as fresh as possible.
