SALMON

KING SALMON:

The anadromous fish thriving on the Pacific coast, this makes King Salmon a very versatile fish. King Salmon serves you the best source of high quality protein and the heart healthy omega-3 fatty acids.

SCOTTISH SALMON:

One of Scotland's finest offerings and Europe cuisine award winner for two decades, Scottish Salmon has a very mild flavor & a high fat content which leads to a melt-in-your-mouth texture. Scottish Salmon feed is parasite-free making it safe to be served raw in sushi and ceviche dishes.

NORWEGIAN SALMON:

A fixture of Christmas and New Year celebrations in Europe, farmed salmon from Norway is known for its impeccable quality in terms of negligible or zero antibiotic use and chemical-free edibility.

'Popular for its wide availability and nutritional abundance, this versatile fish will surprise and excite your tastebuds - whether grilled, pan-fried or roasted. Buy it moist, like we sell, rather than dried out, since moisture content is a great indicator of its freshness.'

- PRE RIGOR SALMON FILLET -

A short time after harvesting and processing the pre-rigor salmon fillet is packed and ready for dispatch. Normally, the processing of filleting had to take place at least three days after harvesting, due to rigor mortis, the hardening of the dead fish. However improved harvesting techniques ensure adequate time is available to fillet the salmon before this biological rigor-mortis process begins. Fillets produced in this way are defined as 'Pre-rigor fillets'.

A PRE RIGOR SALMON FILLET PROVIDES AQUA-FOOD LOVERS WITH SEVERAL BENEFITS:

- Extra freshness in fillets in the market
- Less handling and improved food safety and yield
- More consistent rigor colour, firmer texture, less gaping and grading for better meat quality
- Reduced cost and environmental impact of packaging and distribution
- Less water and waste handling

CRABS

Crustacean cookery is incomplete without our soft, flavoursome, sweet, succulent, robust and meaty crabs. The live ones are active, wriggly, juicy and meaty rather than ones that are nearly all shell.

SCALLOPS

— CANDY OF THE SEA, CHOICEST SELECTION —

A delicious option for both seafood lovers and those who may need a little convincing because of their unique sweet and rich flavor, scallops that we offer are plump and hold their shape, are shiny with a creamy white to ivory color. Some will have a pink or orange tint which is a totally natural variation. All in all, an exclusive seafood recipe awaits.

PERFECTLY BOILED OF
TENDER, SUCCULENT, WITH A CRISPY OCTOPUS LEGS

Caviar

*A fresh product from sturgeon farm located in Thailand.
Representing distinctively deliciousness to satisfy the most
prestigious gourmet taste which melting down in your mouth.
an authentic traditional Russian caviar taste.*

- Minimum salt added
- 100% organic
- no preservatives
- 3 days from catch to your table
- 50 vitamins and essential minerals

Oscietra Caviar

Oscietra Caviar is made from roes of hybrid fish beluga/sturgeon. This caviar has firm and bigger eggs close to Beluga in size, mostly in colors of pearly gray or dark hazel. The flavor is refreshing with lush buttery, long aftertaste. The eggs are crisp with distinctive aroma. This is one of the most popular caviar nowadays considering its delicious taste.

Egg size : 3.0 - 3.2 mm (Dark hazel color)

Beluga Caviar

Beluga Caviar is the most delicious and expensive amongst all back caviar types. Beluga (Huso Huso) originally lives only in the Caspian Sea. The largest grain and most delicate in flavor of sturgeon eggs, Beluga caviar tastes somewhat like the sea with buttery overtones. Its color varies from medium to dark brown with a clear and golden finish.

Egg size: 3.5 - 3.6 mm (Golden brown)

(Huso Huso)

SFO2234	250 gram

USA & CANADA

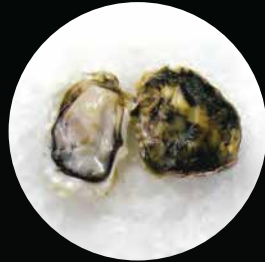

LIVE OYSTER

— FINE SELECTION FOR YOUR VALUE —

Oysters are a rage in USA and Canada with special Oyster bars, National Oyster Days and festivals dedicated to the molluscan delicacy. Oysters take the taste of the marine environment where they are grown. East Coast oysters tend to be saltier and brinier while West Coast oysters tend to be a little sweeter in both USA and Canada

LIVE OYSTER

'I LOVE OYSTERS. IT'S LIKE KISSING THE SEA ON THE LIPS'
- Leon-Paul Fargue French poet

The French claim to have the best oysters in the world. They've had a passion for them since Roman times; so passionate in fact that over-harvesting decimated stocks of their native breeds and most varieties produced there now were sourced originally from Japan. Silky meatiness of the mollusca as it slides down your throat will surely be counted as the purest pleasures of your culinary fantasy.
