

Grass-Fed Beef

“วัวที่เลี้ยงด้วยหญ้าและใช้การเลี้ยงแบบปล่อยให้วัวเดินอิสระในทุ่ง มีเนื้อที่สีนกว่าเนื้อจากวัวที่เลี้ยงด้วยธัญพืช ให้รสชาติเข้มข้นจากสารอาหารที่หลากหลายจากธรรมชาติ สีของเนื้อจึงเป็นสีแดงสด ไขมันสีเหลืองจากเบต้าแคโรทีนในหญ้าทำให้เวลาอย่างมีกลิ่นหอมเป็นเอกลักษณ์กว่าเนื้อทั่วไป!”

LEANER MEAT

Grass-fed beef is often lower in total fat and calories per serving than grain-fed meat.

UNIQUE FLAVOUR

Because grass-fed animals are provided a diversified diet, their flavour is frequently more distinct and earthier than that of grain-fed beef.

YELLOW FAT

Healthy cattle obtain their yellow fat by grazing on verdant pastures, where they inhale and assimilate plant pigments, mostly beta-carotene, a natural form of Vitamin A that functions as an antioxidant and colourant.

ENVIRONMENTAL BENEFITS

Raising beef on grass is frequently linked to more environmentally friendly farming methods, such as lowering greenhouse gas emissions and reducing the need for intensive feedlots.

STRIPLOIN

Size/Packing 2 - 3.5 KG x 1 PC
Size/Packing 3.5 - 4.5 KG x 1 PC
Size/Packing 3.6 - 4.5 KG x 1 BX
Size/Packing 4 - 5 KG x 1 BX
Size/Packing 4 - 6 KG x 1 BX
Size/Packing 4.5 - 6 KG x 1 BX
Size/Packing 5 - 5.5 KG x 1 BX
Size/Packing 16 - 25 KG x 1 BX
Size/Packing 20 - 25 KG x 1 BX

RIBEYE/CUBE ROLL

Size/Packing 1 - 3.5 KG x 1 PC
Size/Packing 2 - 7 KG x 1 BX
Size/Packing 3.5 - 5.5 KG x 1 PC
Size/Packing 3.6 - 5.5 KG x 1 PC
