## DON'T HOLD BACK

**Reuben Mattus**  
Founder of Häagen-Dazs™

# Häagen-Dazs™ Störy

Since 1961, Häagen-Dazs™ has been making ice cream like no other. We continued the passion of Reuben Mattus in crafting the perfect flavours and creamiest textures, using only the finest and carefully selected ingredients, is what we set the Häagen-Dazs™ brand apart. Today, we continue to transform the finest ingredients into extraordinary experiences, bite by bite.

When Mattus set his sights on Strawberry, he knew that only the best variety would do. It took him six years to find the perfect sweet red berries for his ice cream.

**First launch outside of the US:  
Singapore and Hong Kong.**

**Launch of a new  
range of stickbars

# Why Häagen-Dazs™?

HÄAGEN-DAZS IS THE ONLY ICE CREAM UNCOMMONLY CRAFTED TO STOP YOU IN YOUR TRACKS, ENABLING YOU TO EXPERIENCE THE JOY OF LETTING GO AND LIVING IN THE MOMENT.

We are extraordinary ice cream.  
And create extraordinary moments.

Häagen-Dazs is confident always being the gold standard of ice cream.

It's an iconic, yet authentic, its made with true materials and very good tastes.

Proud to say we're 'The Ice Cream of Ice Creams', because only ice cream from Häagen-Dazs brings true savouring moments.

## Uncompromising Quality

Today, Häagen-Dazs™ ice cream is made by milk and fresh cream in France with fine ingredients from all around the world. We offers the natural and velvety ice cream without any artificial flavourings, colorings and emulsifier added into our ice cream. The low air content in Häagen-Dazs™ ice cream gives it a smoother and creamier of velvety texture.

Häagen-Dazs™ is the promise that guarantees consumers the ultimate pleasure and indulgence. It's a lifestyle that is being enjoyed all over the world.

# Tips

## Tips For Häagen-Dazs™ Ice Cream Storage

- 1) The freezer temperature should be kept at -21 °C or below.
- 2) The freezer should be locked at night to prevent any goods damages caused by door opening accidentally.
- 3) The shelf life of ice cream will be shortened once it is opened or ice cream temperature is beyond -18°C. Therefore, checking opened ice cream bulk cans in a regular basis is recommended including colour and taste to avoid quality deterioration.
- 4) Check the storage freezer temperature twice a day to ensure the freezer is functioning well.
- 5) Defrosting should be done regularly to guarantee constant temperature inside the freezer, thus maintaining the quality of product.
